su: 3rd Euro DevCon- yr. fax 9-828

Thanks for your quick answer !

A) We'll try to get them on E-Mail

To clear some parts of my fax 89-0904

B)1.

I did not list AmigaDOS sessions but called them AmigaOS (sorry, my mistake, but I don't understand technics stuff), for these sessions we would like to have Andy as the speaker - AmigaDOS 1.4 at a Glance, and the AmigaDOS 1.4, part 1 & 2 together with Steve Beats.

B)2.

We also would like Andy to do the Preferences instead of Eric, hope this is possible.

B)3.

We would prefer having David Berezowski as speaker for Workbench 1.4.

B)4.

Can't find that in S.F. agenda, therefore we can not estimate contents and speaker. More info needed.

B)5.

Our first draft agenda shows a ? for this session, final decision not made.

C) Pls. give me contact info

D) Ch. Raby sounds interesting, adress needed

E) Hope to hear positive news soon !

F) Of course ! Just wait and see !

G) Not at the moment but good ideas always welcomed !

For 3rd party speakers we will pay of course flight, hotel and such. Airfare info needed (copy of confirmation from agency will do if price is clearly shown) in advance to send cheque or money via bank.

2/2

Please be aware, that we can not send out invitations to European developers as long as we don't have a "yes" or "no" on our speaker-wishlist from W.C.

We can live with 1st draft agenda but would hate to have major changes in the final, especially the "big interest" sessions have to be 100% clear and that includes the speakers, too. (You know how much Europeans like perfect and proper planning, don't you?)

We MUST have Jeff Porter, Joe Augenbraun and Dave Haynie ! If somebody else than Mike can do the AMIX sessions, that's o.k. with us but WE NEED & WANT A GOOD, TECHNICAL ORIENTED AMIGA/UNIX SESSION !!!

As you know, documentation and bindings will be done by France, this requires that masters of papers/ presentations have to be sent to Ben Phister not later than January 12th, 1990.

Therefore reliability of speakers is expected and I trust you do look after that matter or point on somebody to handle this (and maybe is able to kick on those being late).

Have a nice day !
